

We are pleased to announce our training schedule for October 2017, with training topics, based on the current industry requirements.

AMC Training Center schedule includes the below seminar topics (see also attached file):

Tanker Management and Self Assessment 3 (TMSA 3)

Oil Record Book Part I

Media Response - Emergency Response

Resilience – a SHELL initiative

Risk Assessment

Our Seminars are conducted by experienced professionals, based on modern learning methodologies, such as reflective learning, interaction, group and pair work as well as case studies.

It is our aim to provide well established, highly informative training courses, which cover the needs of the demanding maritime industry with a pleasant and interactive way.

We would be more than happy to arrange additional training courses based on your feedback and request.

We are looking forward to welcome you in AMC Training Center.
