How It Works

- The interviews are conducted by AMC Lead Auditors and Corporate Psychologists.
- Direct communication between the Auditors and the Master, after coordination with the Company.
- Real-time interview of each individual via web-meeting.
- Semi-structured interview questions over scenarios, designed by our experts for the specific requirements of the assessment.
- Cooperation with the Master for the interviews.

Deliverables

AMC delivers to the Company an Official detailed rBCA&V Report with the evaluation and comments for every Crewmember who participated in the assessment and proposes identified training needs if necessary.

An overall evaluation of the Team is also included.

Benefits for AMC Clients

- Worldwide coverage
- Company chooses when and where to conduct the audit
- Cost-effective, allows for frequent assessments remotely
- Real-time evidences
- Leading BCA&V expert assessors
- In line with OCIMF TMSA, including the new Element 14 requirements
- Available trainings per Behavioral Competency through AMC Maritime Training Center.

AMC monitors Behavioral Competency Assessment-related developments and technology breakthroughs to maintain an up-to-date set of Assessment Services for our Clients, in line with TMSA3, ISGOTT 6, SIRE/VIQ7 and DryBMS requirements.
